| Epic Link:   | <a href="#">Shopping Cart Module</a>  |           |               |
| <b>Description</b>   |   |           |               |
| Preconditions:   |   |           |               |
| 1. Open the Application URL in any supported browser: <a href="https://demo.opencart.com">https://demo.opencart.com</a>  |   |           |               |
| 2. One product is already in the shopping cart (1 iMac)  |   |           |               |
| Steps:   |   |           |               |
| 1. Go to "Shopping Cart" page  |   |           |               |
| 2. Change the quantity from 1 product to 2 products into the "Quantity" field of the Product in the displayed Shopping Cart page   |   |           |               |
| 3. Click on "Update" icon option   |   |           |               |
| Expected results:  |   |           |               |
| The weight of both products should be updated automatically when changing the quantity of the products. Correct weight of the two products should be displayed in the Shopping Cart page |   |           |               |
| Actual results:  |   |           |               |
| The weight of both products is not updated automatically when changing the quantity of the products. A wrong weight is displayed in the Shopping Cart page.                              |   |           |               |

[OP-23] Error message not displayed when creating product with invalid tag ("Comma separated") Created: 30/May/23 Updated: 21/Oct/23

| Epic Link:   | <a href="#">Admin Product Category Module</a>   |           |               |
|  |   |           |               |
| <b>Description</b>   |   |           |               |
| Preconditions:   |   |           |               |
| Admin successfully logged in with valid username and password  |   |           |               |
| Steps:   |   |           |               |
| 1. Go to Catalog - Category in the administration  |   |           |               |
| 2. Click "Insert" button in the upper right corner   |   |           |               |
| 3. You will be directed to the category's information page   |   |           |               |
| 4. Fill in all the mandatory category information under three tabs: "General", "Data", "Design". (Data - Top checkbox is not selected)               |   |           |               |
| 5. Click "Save" button in the upper right corner   |   |           |               |
| 6. Check the top menu of every page to see if the new category will not be displayed   |   |           |               |
| Expected results:  |   |           |               |
| Not selecting the "Top" checkbox will NOT DISPLAY this category in the top menu of every page.   |   |           |               |
| Actual results:  |   |           |               |
| Not selecting the "Top" checkbox will still DISPLAY this category in the top menu of every page  |   |           |               |
